## PROFILE SUMMARY

Hello, I'm Walter Melendez, a dedicated Computer Science student nearing the end of my 3rd academic year at Full Sail University. I am proficient in various aspects of software development, I have gained a solid foundation in object oriented programming, data structures, algorithms, and Agile methodologies, particularly scrum.

---

## TECHNICAL SKILLS

**Languages:** C++, C#, Java    **Specializations:** Android Development (Recent)    **Tools:** Jira, GitHub

**Methodologies:** Object Oriented Programming, AGILE

---

## DEVELOPMENT EXPERIENCE

### Android Developer

April, 2023 – June, 2023

Busy Bee, Winter Park FL

- Developed the application's profile page using Java.
- Collaborated in Agile team environments to drive project workflows.
- Led team management, ensuring timely completion of assigned tasks.

### C++ Developer

Feb, 2023– March, 2023

Calculator App , Winter Park FL

- Executed the Shunting Yard algorithm for expression evaluation.
- Developed numerical input functionalities using C++.
- Implemented error-handling in C++ to validate and ensure accurate input calculations.

### C# Developer

September, 2022 – October, 2022

Conway's Game of Life, Winter Park FL

- Developed a Windows desktop application featuring Conway's Game of Life.
- Implemented algorithm rendering and UI enhancements using C#.
- Provided weekly progress assessments and updates.

---

## EDUCATION

### Bachelors of Computer Science

2021 – Present

Full Sail University, Winter Park FL

Actively pursuing a degree in Computer Science, with a focus on practical and theoretical software development concepts.

### High School Diploma

2012 – 2016

Colonial High School, Orlando FL
